

# WHY INTBUSINESS COLLEGE

In today's demanding business environment which prioritizes a key person's flexibility, speed and efficiency, a robust strategy is critical for success. IntBusiness College (IBC) equips you to achieve these qualities by identifying and supporting your needs. In every session IBC delivers, we take a tailor-made approach to work with the organizational or personal need. Our fully qualified teachers, engineers, administrators, counsellors, examiners and support staff work together to meet

the intellectual, social, behavioural, and emotional needs of each and every learner we serve. We strive to help to develop a solid foundation and business strategy so that you can be successful. We will work to support your development, improve your productivity, make good use of our resources, value your culture and create academic relations.

Our campuses are within easy walking distances of the very heart of London, offering our students the chance to study in one of the world's greatest financial, cultural and historic capital cities. IBC teaches students in smaller groups than at many UK universities and colleges, with normally fewer than 30 students in a class. This allows for students to get individual support and guidance from their tutors.

All our courses are practically-based and taught by experienced industry professionals. We are Recognized International Development Partner of London School of Marketing, an Associate college of Anglia Ruskin University to offer their courses. Our Diploma and Professional qualifications are awarded by recognized UK Awarding Bodies. We are also registered with UK Register for Learning Providers (UKRLP), a 'one-stop' portal used by government departments, agencies, learners and employers to share the key information about the learning provider. UKRLP is a hub to reach information for agencies such as the Skills Funding Agency (SFA), the Higher Education Statistics Agency (HESA), the Higher Education Funding Council for England (HEFCE) and UCAS.

Each of our courses have been carefully developed or selected for its relevance to the industry and for its international recognition as evidence of professional competence.

Our Lecturers, Trainers and Professors are chosen not just for their technical skills but also for their ability to impart their knowledge to others. All of our Trainers, Lecturers and Professors are fully qualified and friendly. Our staffs always do their best to ensure that the course is as enjoyable as possible. Workshops are well-equipped and there is also a quiet library for self-study, as well as an online platform where students can experience virtual campus environment 24x7. The College has regular social events for its student body, such as

cultural events, excursions, club nights, social parties and others.

- Obtain a globally recognised British degree, diploma or professional certificate
- IBC, in association with our partner colleges and universities, is promoting education with quality and affordability
- Fees payable in easy instalments
- Transfer credits to one of our associate international partners
- Fast-track courses leading to accredited qualifications
- Industry led qualification that will leverage your dream career
